***Priority***

2. Applicant's assertion that at the time of filing of the present invention, the utility patent application transmittal form expressly incorporated the disclosure of the parent application (10/288,369) by reference is noted. Examiner thus agrees that the amendment to the specification submitted with the RCE filed July 8, 2005 can be properly entered, and the chain of priority is properly established back to the Japanese priority document (JP 11-6914). The Office regrets any inconvenience.

***Conclusion***

3. The reasons for allowance have not changed from those set forth in the Examiner's Amendment and notice of allowability mailed April 8, 2005.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erica E. Cadugan whose telephone number is (571) 272-4474. The examiner can normally be reached on M-F, 6:30 a.m. to 4:00 p.m., alternate Fridays off.
